

## ***"Tactical Blue-Dot" Series For Law Enforcement"***

Brite-Strike "Tactical Blue-Dot" Patrol Officer series, designed by police officers for police officers.

These CNC machined milled aircraft aluminium Mil Spec type III super hard anodized black finish lights have a unique three sided body for more ergonomic grip, with a front "Tri-Strike crown" and aggressive rear "Tri-Strike crown".

The pocket clip is specifically designed for line officers and is reversed from other tactical lights. The clip features a greater clearance for lighting fast draws from either a BDU pocket, duty belt, or six pocket police pant. It also allows for quick mounting on a uniform epaulet, and quick removal when needed.

The beam is a brilliant white light with a wider "spread" for a flood effect, which illuminates the entire area of a vehicle on a stop.

The BD-RL198-HLS-2C 3 watt Luxeon Led light provides up to 198 Lumens on high for up to 2 hours, and 90 Lumens on low for up to 4.5 hours and Strobe for 3 hours.

The BD-RL198-MH-2C 3 watt Luxeon Led light provides up to 198 Lumens on high for up to 2 hours
